

Final Goals

1. Encourage highly sustainable and resilient development that protects the natural environment and promotes the health and safety of the community.
2. Minimize threat to life and property from hazards
3. Promote an adaptive and resilient Tribe that responds proactively to the anticipated impacts of climate change.
4. Minimize or reduce the impacts of flooding, wildfire, earthquakes and power failure on Tribal lands, Reservation residents and Tribal members through the implementation and integration of primary mitigation activities in to Tribal government and land use activities.
5. Reduce the possibility of damage and loss to existing Tribal assets from natural and man-made disasters; including Tribal businesses, Tribal Governments and Tribal program offices, as well as critical infrastructure systems and facilities and important cultural and natural resources.
